WORKING PAPER

TASKER FOR 032

16 APR 90

PROJECT: 9015-II

REQUIREMENTS: SEE ATTACHED EEI SHEET.

COMMENTS:

This is a project against a probable narcotics smuggling vessel which you first worked on 9 APR 90. The customer expressed interest in your results and tasked these EEI specifically for you (good going!). Attached as are a map and an EEI sheet. Don't forget to include session date/times on both summary and EEI sheet. If you want to see your previous session or have any questions, just ask.

SUMMARY OF INFORMATION

(probable mothership)

The vessel identified in session #1 (DTD 09 APR 90) continues to sail for the unloading point determined to be 48 09' N / 61 05' W. The time for the exchange is not clear -- there is some discussion between the principals about postponing it 24 hours because of delays inherent to the mother ship."

The current location for the mother ship is 42 01' N / 65 01' W, traveling at 18 knots on a heading of 050'. The ship may try to increase speed in the next several hours to try and make the drop time (if time is not changed).

The drop will be made under the cover of darkness (exact time undetermined) and the drop will be heavily guarded. I perceive the amount of contraband exchanged on the drop to be approximately 150 - 200 plastic bags that are about 2" H x 6" W x 12 " long.

Callsigns used by the mother ship will change several times to throw off "enforcement listeners". Some of the callsigns listeners can expect to hear are: "Magic", "Downer", "Crazy eight", "Carmen".
